

## Dave Mongillo Testimonial

March 17, 2015

My introduction to Dave & WebSiteUpdates.net was through an email solicitation he sent as a Northampton Chamber of Commerce member.

Dave's email intrigued me enough to give him a call, which followed with several meetings and email exchanges over the next several months.

**Dave is an efficient communicator and possesses a skill set that quickly identified our Web sites needs.**

In the end, Dave created an **easy to navigate site** that was **visually attractive** and **compelled visitors to take action** and contact our business for service.

Thank you Dave for handling our Web site needs in a professional and efficient manner.
